# The Unwelcome Neighbor

A tale from the Panchatantra<sup>1</sup>

*Retold by Santhini Govindan*

- 1 Once upon a time a pair of crows came across a huge old banyan tree. The tree had strong branches and a wonderful roof of green leaves that provided shade from the sun. It seemed like the perfect place to build a nest.
- 2 The crows immediately set to work. Soon a round nest was hidden high among the leaves of the tree, ready for the eggs that Mother Crow would lay.
- 3 One day, a huge black snake slithered past the banyan tree. He noticed a deep, dark hole at the bottom of the tree, and he decided to make it his home.
- 4 This alarmed the crows. Father Crow discussed the matter with the other animals who lived in the banyan tree. "Beware of the snake," they said. "He is dangerous."
- 5 When Mother Crow heard this, she began to cry. "How can I lay my eggs?" she asked Father Crow. "I want to leave! Let's go far away and make a new nest."
- 6 "No, we must not leave," said Father Crow. "The banyan tree is the best place for us to live. I will find some way to drive away the snake."
- 7 Mother Crow was reassured by Father Crow's words. She laid seven eggs, and before long there were seven baby crows in the nest. They quickly grew big and fat under Mother Crow's watchful eye. Their noisy chirping could be heard all over the banyan tree. The snake heard it, too, and slithered up and down the branches of the tree every day, searching for the crows' nest.
- 8 "Please do something to drive away the snake," Mother Crow begged.

---

<sup>1</sup>**Panchatantra**—The Panchatantra is a collection of fables from India.

- 9 Father Crow decided to ask a wise old fox for help. The fox listened to the crow's tale of woe and then came up with a brilliant plan. He told the two crows to go to the river the next morning. The ladies of the royal household would be swimming there. Their jewels would be lying on the riverbank, watched over by servants.
- 10 "Pick up a necklace and fly home," said the fox. "Be sure to make a loud noise so that the servants will follow you. When you reach the tree, drop the necklace into the snake's hole."

Copyright © 2002, Highlights for Children, Inc., Columbus, Ohio.

- 11 The crows did exactly as the fox had told them. Mother Crow snatched a ruby necklace in her beak and flew away. Father Crow cawed loudly to attract the servants' attention.
- 12 The servants chased Mother Crow, and as they reached the banyan tree, they saw her drop the necklace into the snake's hole.
- 13 When the servants tried to take the necklace out of the hole with a stick, the angry snake came out hissing. The servants drew back in alarm. But the snake, afraid for his life, slithered away as fast as he could and never came back to the banyan tree. Mother and Father Crow lived there happily for many years and raised many babies, too.

Copyright © 2002, Highlights for Children, Inc., Columbus, Ohio.

**1** What does the word snatched mean in paragraph 11?

- A** Hid
  - B** Tossed
  - C** Broke
  - D** Grabbed
- 

**2** Why is the fox's plan important to the resolution of the story?

- F** The plan helps the crows learn how much they like their home.
  - G** The plan causes the snake to move away from the tree.
  - H** The plan gives the snake a chance to find an important necklace.
  - J** The plan proves to the crows that they like attention.
- 

**3** What can the reader infer about the crows based on their actions after Father Crow talks to the fox?

- A** They worry that the snake will harm the servants.
- B** They often visit the royal ladies and servants at the river.
- C** They want to give the necklace to the fox.
- D** They trust the fox and the plan he shares.

- 4** What key idea about Mother Crow do the details in paragraphs 7 and 8 best support?
- F** Mother Crow is worried about the snake that is living in the tree.
  - G** Mother Crow is afraid that she will not find enough food for her babies.
  - H** Mother Crow is sad because the nest is getting too crowded.
  - J** Mother Crow is upset because no one is listening to her.
- 

- 5** How is the setting of the river important to the plot of the story?
- A** The river is where Mother Crow wants to build a nest.
  - B** The river is where Father Crow meets with the fox.
  - C** The river is where Mother Crow picks up the necklace.
  - D** The river is where Father Crow wants the snake to live.

**6** Look at this illustration.

What is the most likely reason the author includes this illustration in the story?

- F** To show an important part of the fox's plan
- G** To show how the crows build their nest in the banyan tree
- H** To show why the snake moves into the banyan tree
- J** To show that the crows need the fox's help in order to stay safe

**Read the selection and choose the best answer to each question.  
Then fill in the answer on your answer document.**

## **Mission Blue**

- 1 The oceans are a beautiful place. People like to play and relax near oceans. But oceans are also special places. Many plants and animals live in oceans. These plants and animals are interesting and important.
- 2 Imagine if one type of plant in the oceans disappeared. Fish that ate that plant would have no food, and they would disappear. Then, bigger sea animals, birds, and humans would have fewer fish to eat. Even a small loss can lead to a big problem.
- 3 Some people know just how special oceans are. This is why members of Mission Blue call oceans “the blue heart of the planet.” Mission Blue is a group of scientists and volunteers from around the world who love the oceans and try to keep them clean and healthy. Sylvia Earle, an oceanographer (a scientist who studies oceans), started this group in 2009.

Dr. Sylvia Earle

Bryce Groark - Hope Spot Palmyra

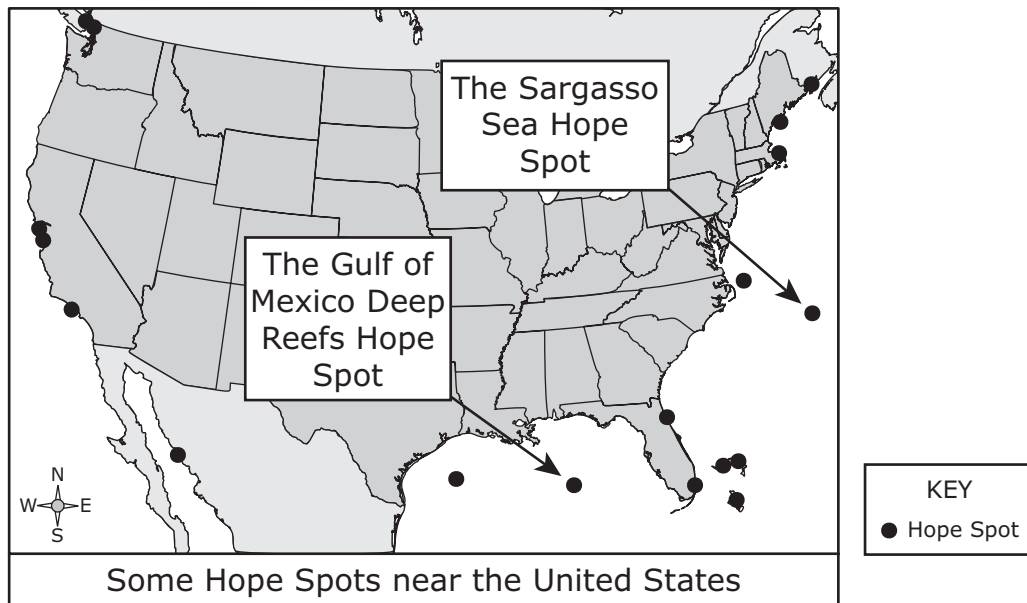

- 4 Earle started Mission Blue because she learned that oceans were in trouble. In many areas of the ocean, the water is dirty, and animals and plants are in danger.
- 5 Mission Blue’s goal is to stop this damage to the oceans. But how can people protect something as big as an ocean? They start by dividing it into many smaller parts. It is easier to clean and protect a

small part of an ocean. As more people become involved, more areas of the ocean will become protected.

### Hope Spots

- 6 Mission Blue finds small parts of the ocean that are in danger. Then, the group works to have the areas identified as marine protected areas, or MPAs. There are rules to keep the areas unharmed. In some areas people are not allowed to fish or even use boats. For Mission Blue, MPAs are called “hope spots” because there is hope that by working together these areas will become healthier.
- 7 One “hope spot” is the Sargasso Sea. This is a small area in the Atlantic Ocean. Scientists discovered that plant and animal life in this area rely on plants called algae (al-jee). Many creatures live in or eat the algae. Scientists learned that the algae were disappearing. Mission Blue is working with leaders who live near the area to keep the ocean water clean. By doing this the algae will continue to grow and remain healthy.
- 8 Another “hope spot” is the Gulf of Mexico Deep Reefs. Reefs are large ridges on the ocean floor. Plants often grow in reefs. These reefs are homes for fish, coral, and other creatures. Mission Blue does its best to protect the reefs. Members do this by keeping people from fishing in the area.

- 9 Mission Blue teaches people about “hope spots” and searches for ways to help the waters. Scientists often sail into the oceans. They dive to great depths to study and gather information about plants

and animals. These scientists often take beautiful pictures and videos underwater. Then, they share the pictures with others. By doing this they hope people will become interested in protecting these wondrous places.

### **Beyond the Ocean**

- 10 Mission Blue does important work on land too. Members teach people about the oceans in many ways. Some members write books about special places in the ocean. Others talk about Mission Blue's goals and discoveries at special events. Some events are meant for scientists and leaders. Others are offered to anyone interested in ocean life.
- 11 At a recent event in Japan, members of Mission Blue offered a beach party for a group of schoolchildren. The kids enjoyed snacks and games and played in the water. They also learned about the ocean and spent time cleaning up the beach after a storm left rubbish on the shore. At this event kids helped the ocean and had fun at the same time.
- 12 Mission Blue believes young people can make a big difference. They can raise money to clean ocean waters or save sea animals. They can recycle and make less pollution. After learning about oceans, these young people can even teach others about oceans. People of all ages can work together to help save Earth's wonderful waters.

**7** Which key idea do the details in paragraphs 11 and 12 support about the goals of Mission Blue?

- A** Young people can do their part to help oceans.
  - B** Storms may cause some problems for oceans.
  - C** Schools should teach young people about oceans.
  - D** Taking care of oceans requires several talents.
- 

**8** In paragraph 6, the prefix *un-* helps the reader understand that unharm means —

- F** harmed again
  - G** able to harm
  - H** full of harm
  - J** not harmed
- 

**9** What can the reader conclude about Mission Blue from information throughout the selection?

- A** Mission Blue wants more people to travel to oceans.
- B** Mission Blue plans to stop people from fishing in oceans.
- C** Mission Blue wants all its volunteers to be scientists.
- D** Mission Blue values teaching people about oceans.

**10** In paragraphs 5 and 6, which key idea do the details support about why Mission Blue divides the ocean into small areas called “hope spots”?

**F** These areas are easier to reach by boat.

**G** These areas have the deepest waters.

**H** These areas are easier to care for.

**J** These areas have very few visitors.

---

**11** What is the most likely reason the author wrote this selection?

**A** To inform the reader about the work of Mission Blue members

**B** To persuade the reader to visit oceans

**C** To teach the reader about plant life in oceans

**D** To tell the reader where Mission Blue members meet

---

**12** Based on the information in paragraph 9, what can the reader infer about why members of Mission Blue enjoy working with scientists?

**F** Scientists care more about protecting oceans than other people do.

**G** Scientists take the best pictures of animals and plants.

**H** Scientists know how to use boats and machines.

**J** Scientists have knowledge about which ocean plants or animals need help.

**13** How does the author organize the selection?

- A** By explaining problems happening in oceans and the work Mission Blue does to solve the problems
  - B** By describing in chronological order the actions that Mission Blue has taken to help oceans
  - C** By providing the causes of problems in the ocean and effects of the different ways Mission Blue helped with the problems
  - D** By describing mysteries of the oceans and how Mission Blue plans to learn more about oceans
- 

**14** Based on the section “Beyond the Ocean,” what can the reader infer about Mission Blue members?

- F** They are more interested in events for students than events for scientists.
  - G** They want more people to help with the team’s goals.
  - H** They plan to start identifying hope spots on land.
  - J** They are famous because of the organization’s successes.
- 

**15** What is the central idea of the selection?

- A** Oceans are in trouble because sea life is disappearing.
- B** Sylvia Earle is a scientist who loves studying all ocean life.
- C** The group Mission Blue works in different ways to care for oceans.
- D** The group Mission Blue wants to save the plants in the oceans.

**Read the selection and choose the best answer to each question.  
Then fill in the answer on your answer document.**

# **Cheese for Dinner**

## **A Tale from Mexico**

*by Judy Goldman*

- 1 Coyote was hiding behind a boulder near the lake. He licked his chops and stared at Conejo (ko-NEH-ho). The unwary rabbit was gazing at the full moon that lit the cloudless sky.
- 2 Coyote lunged at Conejo. The rabbit bounded away, leaping over rocks and around bushes, but Coyote stayed right behind him, snapping at his heels.
- 3 Conejo came to a wall of rock. Desperately, he looked for a way to escape. Finding none, he cowered against the wall, thinking of what to do.
- 4 Coyote scrambled to a stop. "Caught you," he said, "I haven't eaten for two days, and I'm hungry."
- 5 Conejo's mind raced. "You don't want to eat me," he said. "I'm just a scrawny rabbit."
- 6 "I know you're not much, but you'll do," Coyote said, opening his mouth wide.
- 7 "Wait!" Conejo yelled. "I have a better idea. I know where you can get something delicious to eat. Just before you started to chase me, I saw an enormous wheel of cheese resting on the bottom of the lake."
- 8 "Why didn't you get it?" Coyote asked.
- 9 "I wanted to, but I can't swim. I was thinking about how to fetch it when you surprised me. A big strong coyote like you can probably dive in, pull it out, and eat it all by yourself."
- 10 Coyote's mouth watered. "Show me the cheese," he said.
- 11 Conejo led the way to the lake, then pointed. "See?"

Copyright © 2007, Highlights for Children, Inc., Columbus, Ohio.

- 12 Coyote saw something round and yellow in the water. "That's a big wheel of cheese," he said. "I'm going to get it right now."
- 13 Coyote held his breath and dove in. He swam down, down, down. But when he got to the bottom of the lake, he saw no cheese.
- 14 *Where is it?* he thought as he struggled to hold his breath. Then he swam up, up, up. Gasping for air, he heaved himself out of the water. To his surprise, Conejo was nowhere to be found.
- 15 Coyote stared at the cheese in the lake. *How can I get it?* he wondered. Coyote lifted his head to howl in frustration. At that moment, he saw the full moon. He looked again at the lake and saw the moon's round reflection.
- 16 "That sly Conejo tricked me!" Coyote snarled.
- 17 For hours, Coyote searched high and low for Conejo. Not finding him, Coyote went to bed hungry.
- 18 As for Conejo, he was safe in his cozy burrow.

Copyright © 2007, Highlights for Children, Inc., Columbus, Ohio.

**16** How can Conejo's relationship with Coyote best be described in paragraphs 6 through 11?

- F** Conejo pretends to want to help Coyote.
  - G** Conejo is unsure if he should trust Coyote.
  - H** Conejo is worried that Coyote is unhealthy.
  - J** Conejo enjoys spending time with Coyote.
- 

**17** What is the meaning of the word sly in paragraph 16?

- A** Small
  - B** Quick
  - C** Clever
  - D** Friendly
- 

**18** What key idea about Coyote is supported by the details in paragraphs 10 through 12?

- F** Coyote believes that he will enjoy eating a giant wheel of cheese.
- G** Coyote is tired of chasing Conejo.
- H** Coyote howls at the moon when he is hungry.
- J** Coyote likes to sneak up on Conejo.

**19** Look at this illustration.

Copyright © 2007, Highlights for Children, Inc.,  
Columbus, Ohio.

What is the most likely reason the author includes this illustration in the story?

- A** To help the reader understand that Conejo is worried about Coyote
- B** To show that Coyote has chased Conejo many times
- C** To help the reader understand why Coyote believes there is cheese in the lake
- D** To show that Conejo is just as hungry as Coyote

---

**20** Based on the events at the end of the story, what can the reader predict about Coyote?

- F** Coyote will not trust Conejo again.
- G** Coyote will no longer try to swim in the lake.
- H** Coyote will find a way to get the cheese.
- J** Coyote will discover Conejo in his burrow.

**21** In paragraph 1, the word cloudless includes the suffix -less. The suffix helps the reader understand that cloudless means —

- A** close
  - B** clear
  - C** dark
  - D** scary
- 

**22** Which sentence best describes Coyote's relationship with Conejo by the end of the story?

- F** Coyote is eager to find Conejo so they can become better friends.
- G** Coyote is grateful to Conejo for showing where to find cheese.
- H** Coyote is angry with Conejo because he has a comfortable place to live.
- J** Coyote is upset with Conejo for saying something that was untrue.

**Read the selection and choose the best answer to each question. Then fill in the answer on your answer document.**

## **Book Clubs Are for Everyone!**

- 1 You may have heard about book clubs. They have been around for many years. In the past most book clubs were for adults. Today more young people are forming their own book clubs. You may have even joined one in your classroom. The rules are simple. Members read the same book. Then they meet and talk about the book. Sharing ideas about a book with friends is fun. There are many other good reasons for kids to join a book club.

Book-Club Members Talking  
about Books

© iStock.com/EmirMemedovski

- 2 Belonging to a book club improves reading skills. The more time you spend reading, the more your reading skills will develop. According to the Public Broadcasting Service (PBS) website, by reading books to prepare for a book-club meeting, students improve their ability to read smoothly and with expression. This is because practicing leads to faster and more correct reading. Reading helps you learn to say new words. It also helps you understand their meanings. This is an important skill that is helpful in school and throughout life.
- 3 Do you ever struggle to finish the books you start? Joining a book club might help you with this problem. Book-club members are more likely to finish reading an entire book. If you do not read the whole book, you will not be able to talk about the book at the meeting. Plus, the other members expect you to finish the book. The desire to be prepared will encourage you to finish reading what you started.
- 4 After all the reading you do in school, you may think you don't want to join a book club. But book clubs are different. They give members

a fun way to experience different kinds of books. In many book clubs, each member takes a turn selecting the book for the group to read. This could mean that you will read a book that you may not have picked for yourself. Reading about new or unknown topics leads to learning. Reading books that others have selected helps you to discover new authors. In many ways, book clubs allow their members to think about new ideas.

- 5 Book-club meetings are a great place to practice listening and speaking in a respectful way. At book-club meetings members talk about the books they read. Sometimes members disagree. One person might share what he or she liked about the main character in a story. Another person might make the point that he or she was annoyed by that same character. This can lead to interesting discussions. Being in a book club allows members to share their thoughts and consider the views of others.
- 6 A book club is a great place to make friends. You might already know some members in your book club. This is especially true if some of the book-club members go to your school. By spending time with them at book-club meetings, you will get to know all the members better.

Children's Book Club  
in a Park

© iStock.com/Wavebreakmedia

- 7 Would you like to be in a book club? It is easy to start one. All you need are some other members and a place to meet. Library meeting rooms and parks are good locations. Being a member of a book club is good for you. It is also a lot of fun. Why not join or start a book club today?

**23** In paragraph 4, the prefix *un-* in the word unknown helps the reader understand that the meaning of unknown is —

- A** known again
  - B** known by many
  - C** not known
  - D** wrongly known
- 

**24** Which audience is the author addressing in this selection?

- F** Students
  - G** Parents
  - H** Teachers
  - J** Librarians
- 

**25** Based on the information in paragraphs 1 through 4, what can the reader conclude about students who join a book club?

- A** The students want to start a new book club.
- B** The students belong to several book clubs.
- C** The students develop good reading habits.
- D** The students read more than their parents.

**26** Look at these photographs.

Book-Club Members Talking  
about Books

© iStock.com/EmirMemedovski

Children's Book Club  
in a Park

© iStock.com/Wavebreakmedia

What is the most likely reason the author includes these photographs in the selection?

- F** To show that book-club members have good reading skills
- G** To show that book clubs can meet at different places
- H** To show that book clubs help members choose popular books
- J** To show that book clubs are mainly for adults

---

**27** What sentence supports the idea that joining a book club could help someone make friends?

- A** *Today more young people are forming their own book clubs. (paragraph 1)*
- B** *In many book clubs, each member takes a turn selecting the book for the group to read. (paragraph 4)*
- C** *In many ways, book clubs allow their members to think about new ideas. (paragraph 4)*
- D** *By spending time with them at book-club meetings, you will get to know all the members better. (paragraph 6)*

**28** What opinion does the author include to explain why some students avoid book clubs?

**F** *Members read the same book.* (paragraph 1)

**G** *It also helps you understand their meanings.* (paragraph 2)

**H** *After all the reading you do in school, you may think you don't want to join a book club.* (paragraph 4)

**J** *Being in a book club allows members to share their thoughts and consider the views of others.* (paragraph 5)

---

**29** Which sentence best explains why members of a book club are likely to read a whole book?

**A** *Reading helps you learn to say new words.* (paragraph 2)

**B** *The desire to be prepared will encourage you to finish reading what you started.* (paragraph 3)

**C** *You might already know some members in your book club.* (paragraph 6)

**D** *All you need are some other members and a place to meet.* (paragraph 7)

Read the selection and choose the best answer to each question. Then fill in the answer on your answer document.

# The Rescue

by Laura Sassi

Copyright © 2013, Highlights for Children, Inc., Columbus, Ohio.

A mother squirrel squeaks in distress.  
A gust of wind blew down her nest.  
With pulsing tail and twitching nose,  
Into the fallen nest she goes.

- 5 Out she scoots and in her jaws  
She holds a furry ball with paws—  
A baby squirrel just half her size  
With fluffy tail and shiny eyes.

With babe in mouth, she climbs the tree  
10 Up to a second nursery.  
She gently tucks her baby in  
And scurries down the trunk again.

She moves six babies, one by one,  
And never stops until she's done.  
15 With babies moved, it's time to sleep,  
All snuggled in a furry heap.

Copyright © 2013, Highlights for Children, Inc., Columbus, Ohio.

- 30** What is the most likely reason the poet includes lines 9 through 14?
- F** To show that the mother squirrel looks like her babies
  - G** To describe why the mother squirrel often changes her mind
  - H** To show that the mother squirrel likes to run
  - J** To emphasize that the mother squirrel values all of her babies
- 

- 31** Read lines 6 and 7.

She holds a furry ball with paws— A baby squirrel just half her size
---

What is the most likely reason the poet includes this imagery?

- A** To show that the baby squirrel will grow to look like its mother
  - B** To suggest that the baby squirrel is sick
  - C** To suggest that the baby squirrel is small and helpless
  - D** To show that the baby squirrel likes to play games
- 

- 32** What is the most likely reason the poet includes lines 15 and 16?
- F** To show that the baby squirrels are safe at last
  - G** To show that the baby squirrels need a larger home
  - H** To show that the baby squirrels are tired of climbing
  - J** To show that the baby squirrels like one another

**33** How does the windy setting contribute to the poem?

- A** The windy setting causes the mother squirrel to become afraid of storms.
  - B** The windy setting makes a squirrel family leave the woods.
  - C** The windy setting adds a feeling of mystery to the plot.
  - D** The windy setting causes a problem the mother squirrel must solve.
- 

**34** Which line from the poem best shows that the mother squirrel is kind?

- F** A gust of wind blew down her nest. (line 2)
- G** With pulsing tail and twitching nose, (line 3)
- H** A baby squirrel just half her size (line 7)
- J** She gently tucks her baby in (line 11)

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
1	Option D is correct	In paragraph 11, the word <u>snatched</u> is used to demonstrate that the crow took, or “grabbed,” the “necklace in her beak and flew away.”
	Option A is incorrect	The word <u>snatched</u> does not mean hid in paragraph 11. The servants can see the necklace while it’s in the crow’s beak, and the crow’s intent is to grab, not hide, the necklace.
	Option B is incorrect	Although in paragraph 12 the crow drops the necklace into the hole, in paragraph 11, she grabbed the necklace. Therefore, <u>snatched</u> does not mean tossed in paragraph 11.
	Option C is incorrect	The word <u>snatched</u> does not mean broke in paragraph 11. The mother crow grabs the necklace and then throws it into the snake’s hole but does not break the necklace.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
2	Option G is correct	The fox's plan is described in paragraphs 9 and 10. It is important to the story's resolution because the conflict in the story is about how the crows want to rid their home of the snake. The crows follow the fox's plan to do so, and the plan works, resolving the story's conflict.
	Option F is incorrect	The plan does not help them learn how much they like their home; the crows' love for their home is what causes them to seek out a plan. For example, in paragraph 6, Father Crow says, "The banyan tree is the best place for us to live. I will find some way to drive away the snake."
	Option H is incorrect	Although the snake probably finds the necklace after it's dropped in his hole in paragraph 12, the fox's plan is not to help the snake find a necklace, but rather to chase the snake away from the banyan tree.
	Option J is incorrect	The fox's plan does not show the crows that they like attention; instead, the plan forces the snake to leave the tree forever.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
3	Option D is correct	Because the crows implement the fox's plan in paragraph 10, immediately after Father Crow talks to the fox in paragraph 9, the reader can infer that the crows trust the plan the fox proposes.
	Option A is incorrect	The crows do not give any thought to the servants' safety; they only want to protect their own babies. For example, in paragraph 13, they do not intervene "when the servants tried to take the necklace out of the hole with a stick" and "the angry snake came out hissing."
	Option B is incorrect	There is nothing in the story that implies the crows frequently visit the royal ladies. In fact, given the way the fox explains to Father Crow in paragraph 9 that "the ladies of the royal household would be swimming there," it's implied that this is news to Father Crow.
	Option C is incorrect	Nothing in the story supports this inference. In paragraph 9, the fox tells Father Crow to put the necklace in the snake's hole, which Mother Crow does in paragraph 12; there are no events or dialogue that suggest the fox wants the necklace or that the crows want to give the necklace to him.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
4	Option F is correct	In paragraph 7, the author explains that Mother Crow has had seven chicks and portrays the snake as “searching for the crows’ nest.” In paragraph 8, Mother Crow begs Father Crow to “please do something to drive away the snake.” Therefore, the details in paragraphs 7 and 8 support the idea that Mother Crow is worrying about the snake.
	Option G is incorrect	In paragraphs 7 and 8, feeding her babies is not Mother Crow’s concern; the fact that they “quickly grew big and fat” implies they were eating plenty, and her begging to Father Crow “to drive away the snake” indicates she’s worried about the snake.
	Option H is incorrect	Although in paragraph 7, the author explains that “there were seven baby crows in the nest” and that “they quickly grew big and fat,” there is no indication in paragraphs 7 and 8 that Mother Crow is sad about the nest being crowded. Her pleas to Father Crow to “do something to drive away the snake” demonstrates her worries about the snake.
	Option J is incorrect	In paragraphs 7 and 8, Mother Crow expresses her concern to Father Crow, who immediately takes action by going to see the fox.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
5	Option C is correct	The river is important to the plot because, as described in paragraph 11, it is where Mother Crow gets the necklace, which is an important part of the fox's plan to drive away the snake.
	Option A is incorrect	Mother Crow says nothing about building a nest at the river. Rather, after following the fox's plan to rid the tree of the snake, it's explained in paragraph 13 that the crows lived in the banyan tree "happily for many years and raised many babies, too."
	Option B is incorrect	In paragraphs 9 and 10, the fox tells Father Crow "to go to the river" to "pick up a necklace." If Father Crow met the fox at the river, the fox would have said something like, "come back to this river."
	Option D is incorrect	Father Crow wants the snake to go far away, but he does not say anything about the snake going to live at the river. The river is only mentioned as the place the crows must go to start to set the fox's plan in motion.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
6	Option F is correct	The illustration shows the crows doing what the fox told them to do, to “pick up a necklace and fly home” (paragraph 10). This is a key part of the fox’s plan.
	Option G is incorrect	The illustration does not show the nest and provides no details that show how the crows build their nest in the banyan tree.
	Option H is incorrect	Although there are trees in the illustration’s background, including one with an opening at the bottom of the trunk, it is not clear whether this is the tree the snake lives in. Either way, the focus of the illustration is Mother Crow carrying the necklace.
	Option J is incorrect	Even though the fox’s plan helps the crows stay safe, this is not the focus of the illustration, which shows Mother Crow following a key part of the fox’s plan.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
7	Option A is correct	In paragraphs 11 and 12, the author lists activities that young people can take part in to help save oceans, which is the goal of Mission Blue. For example, the author describes kids cleaning a beach and explains that “young people can make a big difference,” such as by raising money to save sea animals, recycling, and teaching others about oceans.
	Option B is incorrect	The debris left on the beaches from a storm is mentioned, but this is not the key idea about Mission Blue’s goals; instead, it is a detail that helps support the key idea in paragraphs 11 and 12, that kids can help oceans, thereby helping Mission Blue accomplish its goals.
	Option C is incorrect	Although Mission Blue’s teaching efforts are mentioned, the focus is not on what schools should be doing. This is a detail that helps support the key idea in paragraphs 11 and 12, that young people help Mission Blue in its goal to preserve oceans.
	Option D is incorrect	Paragraphs 11 and 12 do not mention any specific talents required to take care of oceans; the tasks mentioned are details that help support the key idea about kids helping with Mission Blue’s ocean preservation goals.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
8	Option J is correct	Due to the prefix in the word <u>unharmed</u> in paragraph 6, this word means that something is not harmed. The reader can infer this based on information in the paragraph, such as “in some areas people are not allowed to fish,” which is a rule that can prevent harm to the areas.
	Option F is incorrect	The prefix “un” means “not” rather than “again,” so <u>unharmed</u> means not harmed. The reader can infer this by reading paragraph 6, since rules would most likely not be established to harm the areas again.
	Option G is incorrect	In paragraph 6 the word <u>unharmed</u> means not harmed, rather than able to cause harm. Using the context of the paragraph, the reader can infer the rules are not created to gain an ability to harm.
	Option H is incorrect	The prefix and the base word together in <u>unharmed</u> mean not harmed, rather than full of harm. Reading the use of the word in paragraph 6, the reader can infer that rules would not be established to keep the areas full of harm.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
9	Option D is correct	In the selection, the reader can find information supporting the conclusion that Mission Blue values teaching people about the oceans because it helps them reach their goals. For example, in paragraph 5, the author demonstrates how ocean damage can be reduced the “more people become involved.” In paragraphs 9 through 12, the author discusses how Mission Blue teaches people to get them more involved.
	Option A is incorrect	Although the author illustrates reasons people might spend time at oceans, such as “to play and relax” (paragraph 1) and have “a beach party” (paragraph 11), the author does not use the selection to persuade people to travel to oceans. Instead, the focus is on protecting oceans.
	Option B is incorrect	In paragraph 8, the author refers to fishing restrictions established to protect reefs in a “hope spot;” however, it cannot be concluded from the selection that Mission Blue wants to end ocean fishing in general.
	Option C is incorrect	There is no evidence provided in the selection that Mission Blue wants all its volunteers to be scientists; in fact, in paragraph 11, the author demonstrates how Mission Blue works with volunteer schoolchildren and explains in paragraph 12 how “people of all ages can work together to help save Earth’s” oceans.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
10	Option H is correct	In paragraphs 5 and 6, the author provides details for the key idea that "hope spots" are easier to care for than the whole ocean. The author points out in paragraph 5 that smaller parts of the ocean are "easier to clean and protect." In paragraph 6, the author explains that Mission Blue gets these areas "identified as marine protected areas," which they call "hope spots."
	Option F is incorrect	The areas of the ocean called "hope spots" are not selected because of their accessibility by boat; in fact, as the author explains in paragraph 6, in some "hope spots," people are not allowed to use boats.
	Option G is incorrect	The depth of the water in an area is not the reason Mission Blue divides the ocean into "hope spots." When the author refers to people protecting "something as big as an ocean" in paragraph 5, it's to explain how "hope spots" are easier to care for than the whole ocean.
	Option J is incorrect	Although visitors are discouraged or limited in some of the "hope spots," as the author explains in paragraph 6, the number of visitors an area gets is not why it is selected to be a "hope spot."

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
11	Option A is correct	The author wants to call attention to the work that Mission Blue members do for the restoration and protection of the ocean environment. The author explains in paragraph 3, "Mission Blue is a group of scientists and volunteers from around the world who love the oceans and try to keep them clean and healthy," and then provides evidence for this throughout the selection.
	Option B is incorrect	Although some readers might be inspired to visit oceans, such as to volunteer for Mission Blue, this is not the author's primary purpose with the selection. The author is bringing attention to the work of Mission Blue rather than persuading more people to visit the oceans.
	Option C is incorrect	The author is teaching people about Mission Blue's work, which includes but is not solely focused on protecting plant life in the oceans. For example, in paragraph 7, the author refers to algae as part of a discussion about Mission Blue's work to "keep the ocean water clean."
	Option D is incorrect	The author's references to places visited by Mission Blue members, such as the mention of the Sargasso Sea and the Gulf of Mexico in paragraphs 7 and 8, are details that help describe the work of Mission Blue members. Therefore, informing the reader where Mission Blue members meet is not likely the reason the author wrote this selection.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
12	Option J is correct	Using information in paragraph 9, the reader can infer that Mission Blue members most likely enjoy working with scientists because scientists know which ocean plants or animals are most in need of their help. The reader can infer this from the author’s statement that scientists are often in the oceans, diving “to great depths to study and gather information about plants and animals.”
	Option F is incorrect	This statement is not implied by the text. Both the scientists mentioned in paragraph 9 and the volunteers who give their time and energy to the Mission Blue project, such as the schoolchildren referred to in paragraph 10, are described as caring about protecting oceans.
	Option G is incorrect	The photography mentioned in paragraph 9 is unlikely to be why the members most enjoy working with scientists; rather, it’s likely related to their scientific expertise about ocean life.
	Option H is incorrect	In paragraph 9, the author mentions “scientists often sail into the oceans” and take “pictures and videos underwater,” but this is not likely why Mission Blue members enjoy working with them, since non-scientists also know how to operate these things. More likely, it can be inferred that Mission Blue members appreciate scientists for their expertise about ocean life.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
13	Option A is correct	The author uses problem-solution organization. In paragraph 4, the author states the problem—"In many areas of the ocean, the water is dirty, and animals and plants are in danger." After this, the author discusses Mission Blue's work toward a solution, such as dividing the ocean into "hope spots," described in paragraphs 5 and 6.
	Option B is incorrect	Because the author focuses on the work and impact of Mission Blue, events are not necessarily explained in chronological order. For example, in paragraphs 7 and 8, the author identifies two examples of "hope spots," but there is no indication about whether, for example, these were created before the event with Japanese schoolchildren described in paragraph 11.
	Option C is incorrect	The author focuses on the problems—such as "the water is dirty, and animals and plants are in danger" (paragraph 4)—instead of the cause of the problems, and the solutions—such as teaching people about oceans (paragraph 10)—instead of the effects of these solutions.
	Option D is incorrect	The author uses the selection to teach readers about the work of Mission Blue, not about the ocean's mysteries, and Mission Blue's focus is more on cleaning up oceans than learning the mysteries of oceans.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
14	Option G is correct	In the section "Beyond the Ocean" (paragraphs 10-12), the author explains how Mission Blue members teach people and demonstrates the importance of involving other people, such as through events like the one in Japan, where schoolchildren directly helped accomplish the team's goals.
	Option F is incorrect	Although paragraphs 11-12 demonstrate the significance of young people to Mission Blue's goals, there is no support for the idea that they prefer certain types of events over others. In fact, in paragraph 12, the author states, "people of all ages can" help make a difference.
	Option H is incorrect	Although the section "Beyond the Ocean" identifies ways that Mission Blue conducts some of their work on land, such as teaching people about the ocean and writing books (paragraph 10), there is no indication that the organization is going to start identifying "hope spots" on land.
	Option J is incorrect	Even though the section "Beyond the Ocean" refers to people who write books and speak at "special events" (paragraph 10), there is no evidence that members of Mission Blue are famous; their goal is to increase public awareness of environmental issues rather than their own personal fame.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
15	Option C is correct	The central idea of the selection is that Mission Blue is doing a range of work to help improve the condition of oceans. For example, the author discusses “hope spots” in paragraphs 6 through 9 and teaching and holding events in paragraph 10.
	Option A is incorrect	In paragraph 2, the author asks the reader to “imagine” what would happen if sea life disappeared, explaining, “even a small loss can lead to a big problem.” However, this is not the central idea of the selection; rather, it is related to the work Mission Blue does to prevent harm to oceans.
	Option B is incorrect	As the author explains in paragraph 3, Sylvia Earle is the founder of Mission Blue, but the central idea of the selection is focused on the work of Mission Blue.
	Option D is incorrect	The selection includes references to protecting ocean plants, such as the discussion of algae in paragraph 7; however, information about plants are details that support the central idea, related to the work Mission Blue is doing to help oceans, not the central idea.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
16	Option F is correct	In paragraphs 6 through 11, Coyote corners Conejo, who pretends to offer to help Coyote by showing him an “enormous wheel of cheese” (paragraph 7), but he’s offering only so he can escape being eaten.
	Option G is incorrect	Conejo knows that he cannot trust Coyote, who wants to eat him.
	Option H is incorrect	Conejo is concerned about his own well-being, not about that of Coyote, as indicated by Conejo’s disappearance while Coyote is in the lake. As the author explains in paragraph 14, when Coyote emerged from the lake, “Conejo was nowhere to be found.”
	Option J is incorrect	In paragraphs 6 through 11, the relationship does not involve friendship; it is purely one of hunter versus hunted.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
17	Option C is correct	<u>Sly</u> means clever. Coyote says, “That <u>sly</u> Conejo tricked me!” Conejo tricks him by getting him to believe the moon’s reflection is cheese, to stop Coyote from eating him, which is a clever plan that works.
	Option A is incorrect	<u>Sly</u> does not mean small. Conejo is small, but his cleverness—being <u>sly</u> —is what allows him to trick Coyote.
	Option B is incorrect	<u>Sly</u> does not mean quick. When Coyote says, “That <u>sly</u> Conejo tricked me!” he is referring to Conejo’s cleverness, his ability to come up with a plan that stops Coyote from eating him.
	Option D is incorrect	<u>Sly</u> does not mean friendly. Coyote and Conejo are not being friendly. Instead, Conejo cleverly comes up with a trick to get away from Coyote.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
18	Option F is correct	In paragraphs 10 through 12, Coyote believes he will have cheese to eat, because when Coyote looks at the water, he sees a big yellow circle and says he's "going to get it right now" (paragraph 12).
	Option G is incorrect	There is no evidence that Coyote is fatigued. Instead, in paragraph 10, his mouth waters, in paragraph 11, he follows Conejo to the lake, and in paragraph 12, he says he's going to get the cheese. Also, as the author points out in paragraph 2, Conejo has nowhere to run.
	Option H is incorrect	In paragraph 15, not in paragraphs 10 through 12, Coyote is described as howling at the moon out of frustration that he can't find the cheese.
	Option J is incorrect	Coyote chases Conejo; he does not sneak up on the rabbit in paragraphs 10 through 12.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
19	Option C is correct	The illustration clearly shows the large circle on top of the water, which helps the reader understand why Coyote believes Conejo's story about the cheese.
	Option A is incorrect	There is no indication of worrying shown in the illustration. Conejo is talking to Coyote, a smile on his face, and Coyote is focusing on the water, not Conejo.
	Option B is incorrect	The illustration does not indicate how many times Coyote has chased Conejo; the important part of the illustration is the circle shown on the water.
	Option D is incorrect	There is no indication in the illustration that Conejo is hungry; instead, it shows Conejo pointing out the reflection in the water, which Conejo understands is from the moon.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
20	Option F is correct	Coyote proclaims his frustration that "Conejo tricked" him in paragraph 16, and, in paragraph 17, after searching for Conejo "for hours" he goes "to bed hungry." Based on this evidence, the reader can conclude that Coyote will never trust Conejo again.
	Option G is incorrect	The author never suggests that Coyote swims for enjoyment; however, it could be assumed that if there were a food source in the water and Coyote were hungry, he would swim for it. For example, in paragraph 15, Coyote is still wondering how he can get the cheese after "gasping for air" looking for it in paragraph 14.
	Option H is incorrect	Although in paragraph 15, Coyote "stared at the cheese in the lake," wondering how he can get it, he quickly notices it's "the moon's round reflection" and not cheese. In paragraph 16, he acknowledges that Conejo tricked him.
	Option J is incorrect	Even though Coyote hunts for Conejo "for hours," he goes "to bed hungry," as explained in paragraph 17, and in paragraph 18 Conejo is "safe in his cozy burrow."

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
21	Option B is correct	The reader can use the suffix '-less,' which means 'without,' to understand that the sky is clear, because "cloudless" means that the sky is without clouds.
	Option A is incorrect	The suffix '-less' is not related to the idea of closeness, and the word "cloudless" does not mean close; it means that there are no clouds.
	Option C is incorrect	Darkness is not related to the suffix '-less,' so the sky is not dark in paragraph 1. "Cloudless" means that there are no clouds in the sky.
	Option D is incorrect	The suffix '-less' is not related to fear or being scary; when attached to the root word cloud, this suffix results in the word "cloudless," which means there are no clouds.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
22	Option J is correct	Coyote is frustrated with Conejo at the end of the story because Conejo has made a fool of Coyote by convincing him that a large wheel of cheese is at the bottom of the lake. As Coyote snarls in paragraph 16, "That sly Conejo tricked me!"
	Option F is incorrect	Coyote does want to find Conejo, but it's because he is hungry and wants to eat him, not be friends with him.
	Option G is incorrect	Coyote feels no gratitude toward Conejo, only frustration, because there is no cheese and Conejo made a fool of him. In paragraph 16, he snarls about how Conejo tricked him.
	Option H is incorrect	Although in paragraph 18, Conejo's burrow is described as "cozy," the story does not indicate that Coyote knows anything about Conejo's burrow or how comfortable it is.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
23	Option C is correct	The prefix <i>un-</i> means not, so in paragraph 4, something or someone who is <u>unknown</u> is not known. The reader can use context clues to infer this. For example, the author aligns the word <u>unknown</u> with new ideas, topics, and authors. When something is new to someone, it is generally not known before that point.
	Option A is incorrect	The word <u>unknown</u> in paragraph 4 does not mean known again; if something or someone is unknown, it is not familiar or known, as indicated by the author's references to new ideas, new topics, and new authors.
	Option B is incorrect	In paragraph 4, something or someone who is <u>unknown</u> , such as topics and ideas, is not known or familiar. The prefix <i>un-</i> does not indicate that the word would mean known by many.
	Option D is incorrect	The word <u>unknown</u> in paragraph 4 does not mean wrongly or mistakenly known; if something is unknown, such as an idea, it is not known until someone is introduced to it.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
24	Option F is correct	Throughout the selection, the author uses “you” to address an audience of students. For example, the author says “you may have even joined one in your classroom” in paragraph 1 and how reading “helps you understand” the meaning of words, which is “helpful in school and throughout life” in paragraph 2.
	Option G is incorrect	There is no evidence in the selection that the audience is addressing parents; rather, the author uses the word “you” throughout to address students. For example, in paragraph 1, the author states, “you may have even joined one in your classroom.”
	Option H is incorrect	Although the author refers to school reading assignments in paragraph 4, this is not to address teachers; rather, it speaks to those who are assigned readings in school—students. For example, the author says, “after all the reading you do in school.”
	Option J is incorrect	In the selection, the author is trying to convince a specific group of people to join book clubs, not trying to get one group to convince another group to join. For example, the author’s use of “you” is clearly addressed to students, such as with “after all the reading you do in school” in paragraph 4.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
25	Option C is correct	Based on paragraphs 1 through 4, the reader can conclude that students who join book clubs develop good reading habits. For example, the author explains how book clubs get students to read and discuss books (paragraph 1); improve students' reading skills (paragraph 2); encourage students to finish books (paragraph 3,); and get students to read about new ideas (paragraph 4).
	Option A is incorrect	In paragraphs 1 through 4, the author is focused on introducing the idea of book clubs and encouraging students to join one; however, there is no information about whether students start a book club.
	Option B is incorrect	Although the author refers to book clubs in paragraphs 1 through 4, when addressing students directly, the focus is on the singular, not plural. For example, the author says there are many reasons "for kids to join a book club" in paragraph 1. Also, the author does not include information about the number of book clubs that students belong to.
	Option D is incorrect	In paragraphs 1 through 4, the author describes scenarios in which students appear to be reading a lot, such as how "each member takes a turn selecting the book for the group to read" in paragraph 4. However, the author does not make any comparisons between students and parents.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
26	Option G is correct	The author includes photos of book clubs meeting in two different locations, one indoors and one outdoors, to show that clubs can meet in many different places.
	Option F is incorrect	The photographs only show kids in a group with their books open. Even if it can be inferred that they're all reading, the photographs provide no evidence about the book-club members' reading skills.
	Option H is incorrect	These photographs do not show that the book club helps members choose popular books, particularly since book titles are not visible.
	Option J is incorrect	Adults are not pictured in the photographs, so book clubs are not being emphasized as an activity for adults in these photographs.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
27	Option D is correct	The sentence in paragraph 6 indicates that book clubs allow a person to spend more time with others and get to know them better. These are both ways that people develop friendships.
	Option A is incorrect	Although a reader might infer that forming book clubs might result in new friendships, there is nothing in this sentence from paragraph 1 that supports the idea that forming a book club will help someone make new friends.
	Option B is incorrect	This sentence in paragraph 4 indicates how book clubs may offer exposure to new books, but it does not support the idea that a book club can help someone make new friends.
	Option C is incorrect	This sentence from paragraph 4 mentions how book clubs can inspire new ideas in their members, but it does not support the idea that book clubs may help someone make new friends.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
28	Option H is correct	The opinion included in paragraph 4 implies that, because students must read so much in school, they may avoid joining a club that requires them to read more.
	Option F is incorrect	A reader might avoid book clubs because they wouldn't want to read the same book as a group of others; however, this sentence from paragraph 1 is presented as a requirement of book clubs, not an opinion of the author's.
	Option G is incorrect	Although this sentence from paragraph 2 could be considered an opinion of the author's, the author includes it to illustrate how reading can help students learn new words, not to explain why students avoid book clubs.
	Option J is incorrect	A reader might hold the opinion that sharing their thoughts and considering the views of others are good reasons to avoid book clubs; however, this is not an opinion shared by the author who, in paragraph 5, describes book-club meetings as "a great place to practice listening and speaking in a respectful way."

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
29	Option B is correct	This sentence from paragraph 3 explains that members of a book club are likely to read a whole book because they “desire to be prepared,” referring to the desire to meet the expectations of the group for each member to finish the book.
	Option A is incorrect	Although a student might be driven to read out of a desire to learn to say new words, this sentence from paragraph 2 is not intended to explain why members of a book club are likely to read a whole book. Rather, it’s intended to point out a possible effect of reading.
	Option C is incorrect	Already knowing some members in the book club, as mentioned in the sentence from paragraph 6, might explain why students join or stay in book clubs; however, it does not explain why members are likely to read an entire book.
	Option D is incorrect	This sentence in paragraph 7 helps explain how someone can start a book club, not why members are likely to read entire books.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
30	Option J is correct	In lines 9 through 14, the poet describes how the mother squirrel steadfastly and carefully moves all her babies to the safety of the second nursery. For example, in line 11, the mother squirrel tucks the first retrieved baby squirrel in; in line 12, she "scurries down the trunk again" to retrieve the rest. This emphasizes that the mother squirrel values all her babies.
	Option F is incorrect	Although the reader might assume baby squirrels look like their mother, there is nothing in lines 9 through 14 that describe what the squirrels look like.
	Option G is incorrect	In lines 9 through 14, the poet describes how the mother squirrel climbs up and down the tree; however, the poet demonstrates this is to retrieve her babies, not because she is changing her mind.
	Option H is incorrect	In lines 9 through 14, the poet suggests the mother is hurrying, possibly running. For example, in line 12, she "scurries down the trunk again," and in line 14, she "never stops until she's done;" however, she is hurrying to get all her babies to the safety of the second nursery, not running for enjoyment.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
31	Option C is correct	The poet most likely includes this imagery in lines 6 and 7 to emphasize that this “furry ball with paws,” which is “just half her size” is small, and she holds it because it needs her help, or is helpless without her.
	Option A is incorrect	Although these lines describe what the baby squirrel looks like—“a furry ball with paws” that is half its mother’s size, the poet does not include any description of the mother squirrel’s appearance, and so this is not the reason the poet includes the imagery in lines 6 and 7.
	Option B is incorrect	The baby squirrel needs its mother’s help because it has fallen from the nest; the imagery the poet includes in lines 6 and 7 does not suggest that the baby squirrel is sick.
	Option D is incorrect	The phrase “furry ball” refers to the baby squirrel, not to any type of game.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
32	Option F is correct	The poet includes lines 15 and 16 most likely to demonstrate that the baby squirrels are finally safe. Since they are safe, they can all snuggle in and sleep.
	Option G is incorrect	In line 16, the poet uses the phrase “furry heap” to illustrate how the squirrels are snuggling, now that they’re all safe again, not to show they need a larger home.
	Option H is incorrect	These lines do not reflect that the babies are tired from climbing. The mother squirrel did all the climbing; none was done by the babies.
	Option J is incorrect	Lines 15 and 16 emphasize the coziness of the nest, now that the babies have been moved and are safe, not the idea that the babies like one another.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
33	Option D is correct	The windy setting contributes to the poem in that it creates the problem the mother squirrel must solve. For example, in lines 1 through 2, the poet describes how the “mother squirrel squeaks in distress” because “a gust of wind blew down her nest.” Because of this, in lines 5 through 14, she works to carry all the baby squirrels to the safety of the second nest.
	Option A is incorrect	Although the wind causes the mother squirrel to squeak “in distress” in line 1, this is because she is startled, not because she is now afraid of storms. Rather, the mother squirrel shows bravery against the elements by retrieving all the squirrels.
	Option B is incorrect	Nothing in the poem suggests the wind causes the family to leave the woods. Instead, at the end of the poem, the family snuggles together to sleep in the second nest in the tree.
	Option C is incorrect	The windy setting does not add a feeling of mystery to the plot; in line 2, the poet directly states that “a gust of wind blew down” the nest.

## 2022 STAAR Grade 3 Reading Rationales

Item #	Rationale	
34	Option J is correct	The poem reveals the mother squirrel as kind in line 11, because these actions—being gentle and tucking someone in—demonstrate kindness.
	Option F is incorrect	Although line 2 refers to the problem created by the wind, which causes the mother squirrel to retrieve all her squirrels and tuck them into the nest, this line itself does not show the mother squirrel’s kindness.
	Option G is incorrect	In line 3, the mother squirrel pulses her tail and twitches her nose as she reacts to the problem caused by the wind, not out of kindness.
	Option H is incorrect	In line 7, the poet describes how small the baby squirrel is compared to the mother squirrel. Although the smallness of the baby might inspire the mother to kindness, this line itself does not show that the mother squirrel is kind.
